## JEFFERSON'S MEMORY CRISIS IS IMMINENT.

Seven Hundred Persons Present at  
New York Banquet.

### PARKER A SPEAKER.

Former Candidate For Presidency Is  
the Principal Orator and Talks  
About Problems Democ-  
racy Must Solve.

New York, April 14.—Seven hundred Democrats attended the Jefferson Day banquet of the Democratic club of New York at the Waldorf-Astoria Thursday night. There were present many men of national reputation, and chief among these was former Judge Alton B. Parker. In the banquet room portraits of Jefferson were conspicuous.

In addition to Judge Parker the speakers present were Senator Newlands of Nevada, Mayor McClellan of New York, John W. Kern of Indiana, Congressman Rainey of Illinois, and J. Van Wyck.

Senator Carmack of Tennessee was the only one of those expected to speak who did not attend.

Mr. Parker was the first speaker and he was enthusiastically received. Frequently he was interrupted by applause. His speech was on the future of the Democratic party and was replete with suggestions for harmony and urgent appeals against sectionalism.

Mayor McClellan was somewhat disconcerted by the cordial welcome he received. One of the most interesting parts of the mayor's address was that in which he declared that conventions and candidates must more closely conform to Jeffersonian standards, after describing Jefferson himself.

### SIGNIFICANT SUBJECTS

Were Discussed by Prominent Democ-  
rats at Jefferson Club Banquet.

Chicago, April 14.—Subjects of national significance to the Democratic party were discussed by prominent orators at the Jefferson club banquet held at the Sherman House Thursday night in commemoration of the birthday of Thomas Jefferson. The dinner, however, in a measure resulted itself into a jollification over Mayor Edward F. Dunne, who is a director of the club, and was among the speakers who responded to toasts.

William J. Bryan and George Fred Williams of Massachusetts were the principal speakers. Mr. Bryan chose for his subject "Thomas Jefferson," and his remarks were greeted with untold applause. Mr. Bryan took advantage of the occasion to congratulate Mayor Dunne on his recent election as chief executive of the city of Chicago.

Mr. Williams took for his theme "Equal Rights to All and Special Privileges to None." The speaker was accorded a warm welcome by the banqueters.

Mayor Dunne spoke on "Municipal Ownership."

Tom L. Johnson of Cleveland was the next speaker. Mr. Johnson also spoke on municipal ownership. He discussed the possibilities of municipal ownership from a traction expert's views.

Among others who spoke were J. Hamilton Lewis and Clarence S. Darrow. Mr. Lewis spoke on "A Constitution to Fit the Institutions."

### CALLED ON DUNNE.

"We Want to Shake Hands With the Western Conqueror," Says Bryan.

Chicago, April 14.—With hands outstretched in greeting Wm. Jennings Bryan and Mayor Tom L. Johnson, of Cleveland, called on Thursday upon the newly elected mayor of Chicago, Hon. Edward F. Dunne. "We want to shake hands with the western conqueror," said Colonel Bryan.

"And I want to extend the greeting to the idol of his party," responded Mayor Dunne, who then stretched out his hand to grasp that of the municipal ownership mayor of Cleveland.

Then followed a half hour's discussion of Chicago's problem. "The municipal ownership election in Chicago means more than any man can tell," declared Colonel Bryan, smiling broadly.

"I am here, like my friend, Mr. Johnson, to participate in tonight's Jefferson banquet, but I am here for more than that—to greet the greatest mayor of the west. Mayor Dunne has taken the lead over all mayors, all lord mayors in the world. He has received a golden opportunity to become the foremost man in the nation and the people will rejoice in every inch of success he wins, for his victory in this struggle is a victory for the people."

### TERRIBLE EXPLOSION.

Five Thousand Pounds of Dynamite  
and Six Hundred Kegs of Powder.

Nashville, April 14.—During a late hour Thursday night a heavy detonation was heard here accompanied by a shaking of houses that suggested an earthquake. Investigation showed that 5000 pounds of dynamite and 600 kegs of powder had exploded at Bak's Station, seventeen miles northeast, on the Louisville and Nashville railroad where a tunnel is being constructed. Half an acre of ground was torn up at the spot where the explosives were stored and people in that section were thrown from their beds by the shock.

Appeals Are Pouring In Asking For  
Military Protection.

### TROUBLE ON MAY DAY

Reports From Cities and Provinces  
Indicate That on First of Next  
Month There Will Be a  
General Uprising.

St. Petersburg, April 14.—Developments all point to a crisis in the present agitation among the workmen of the cities and peasants in the country on May day and appeals are pouring in from all quarters of Russia for military protection. St. Petersburg workmen are preparing for a great demonstration. Arms and bombs in large quantities have been smuggled in and bloodshed on a large scale is feared. Wealthy persons, who ordinarily go to villas on islands in the Neva river or to neighboring country places, this year are going abroad. The government has taken few special measures to meet the situation, evidently relying on the troops and police guard at the capital. The latter are extremely active. All prominent agitators are being arrested or already have been sent back to the villages from which they originally came. The prisons are filled to overflowing.

There have been fresh disputes between the workmen and managers of Putiloff and Nevski works and between employees and management of the government cartridge factory. At the latter place the men refuse to continue to donate any portion of their pay to assist in support of families of soldiers at the front, claiming the money is used to prosecute the war, to which they are opposed.

News received from the interior is alarming, especially from the Baltic provinces, where the entire population is in a state of intense excitement. Cities are being flooded with a revolutionary proclamation calling on the people to rise on May day. Criminal classes are taking advantage of the situation to pillage and plunder, while in the country landlords are powerless to cope with peasants and demand the stationing of troops at every station. From Dunanburf, Vitebsk government, comes reports of a state of panic over the circulation of a proclamation similar to those which preceded the outbreaks at Kishineff and Comel. At Ekaterinoslav three revolutionists, who were surrounded by police, fought their way to liberty, killing or wounding several of the latter.

A dispatch from Kars says employees of Transcaucasian road are on strike and 100 miles of track had been damaged.

On account of the condition of his health and the fact of evidence against Maxim Gory is not stronger than that against hundreds of others who have not been arrested in connection with disturbances at St. Petersburg, it is understood the government has abandoned its intention of bringing him to trial.

There is no truth in the report from Cracow that Lieutenant General Stoessel has been as a formality condemned to death by the commission appointed to inquire into the surrender of Port Arthur. His trial has just commenced.

### ATTRACTS ATTENTION.

Japan's Statement Being Published Is  
Considered Friendly Act of Uncle Sam.

St. Petersburg, April 14.—Dispatches from Washington stating that Japan officially notified the United States that when the rupture with Russia occurred no act of hostility would take place till after a formal declaration of war had been made, whereas hostilities broke out Feb. 8, and the declaration of war was not formally made until Feb. 10, attract much attention here. The publication of the statement at this time is regarded as a friendly manifestation toward Russia on the part of the United States. Russia has always contended that the statement that M. Kurino, former Japanese minister at St. Petersburg, to Foreign Minister Lamsdorff when he presented his note severing diplomatic relations, in which he expressed the hope that the rupture was only temporary, gave Russia no reason to anticipate an attack without warning in the shape of a declaration of war.

The press commission has recommended the removal of censorship from cartoons and debates of zemstvos and other legal organizations.

Much satisfaction and admiration is expressed in naval circles at the bold, direct manner in which Rojstvensky is carrying out the objects of his voyage. The attitude of indifference in certain quarters of society as to the outcome of the naval battle is arousing criticism, and Prince Ouktomsky, in his newspaper, the Dawn, takes society seriously to task for its unpatriotic, careless attitude.

### RUSSIANS DEFEATED.

Overcome by a Force of Japanese Advancing to the Eastward.

Tokio, April 14.—The following announcement has been made: "Our force advancing pastward via Fushun and the Hailung road encountered and defeated the enemy on the morning of the 12th at Erhouli. The enemy's strength was one regiment of infantry, six squadrons of cavalry and four guns.

Our force then occupied Ssangmin, about nineteen miles east of Yangpan. The enemy, in retreating toward Hailung, fought at every step. The enemy on the Kiri road has gradually retreated since the 11th, a portion of this force remaining to bar the passage of the Yushu river. No change has occurred in Changtu or Fakhmen districts except occasional cavalry skirmishes."

### Woman Kills Woman.

Cripple Creek, Colo., April 14.—Mrs. S. W. Wilder, the wife of a newspaper man, shot and killed Mrs. H. Douglass of Colorado Springs in the National hotel. Jealousy is supposed to be the cause.

In a fight with a Greek band 100 Bulgarians were killed.

### MUSIC AND ORATORICAL EXERCISES.

**Bryan Academic and Collegiate Institute Pupils Acquit Themselves Most Creditably.**

The first public debate of pupils of the Bryan Academic and Collegiate Institute held at the opera house was heard last night, together with a fine concert program by Mrs. Cone and the pupils of her class.

The Academic and Collegiate Institute has the largest attendance of pupils in its history and the enrollment of the year totals nearly one hundred. This steady growth is a matter of great satisfaction to the president and faculty and to the friends of the school, and the thorough and substantial educational work of the institution is steadily spreading its fame and increasing its opportunities.

The musical numbers of the program which is given below, were of a high order of excellence, and served not only to evidence excellent instruction and proficiency in accomplishment, but also to introduce the original work of the teacher and pupils in composition and arrangement, which was one of the most pleasing features of the entertainment.

#### PROGRAM.

Impromptu.....Chopin  
Miss Sunshine Cole.  
Piano Duet—"Alpine Song".....  
Elizabeth Kellogg Cone  
Mrs. Cone and Miss Edith Preston  
Debate:  
Question—"Resolved that a Japanese victory in the Russo-Japanese war would be a menace to Aryan supremacy, and would retard the progress of Christianity in the Orient." Affirmative—Guy Board, Miss Laura Brogdon. Negative—Ross Stewart, Miss Bertha Stuart.  
Grande Valse De Concert.....  
Tito Mattei  
Miss Pattie McClung.  
Piano Duet—Theme and arrangement by Miss Villa McCullough  
Mrs. Cone and Miss McCullough  
Le Chant Du Cigne (Song of the

Swan).....Blumenthal  
Mrs. Cone.

Marche Militaire—Composed and played by Miss Pattie McClung  
Evening—Composed and played by Miss Sunshine Cole.

Strong interest was manifested in the debate owing to the timeliness of the discussion and the intelligent and forcible presentation of the arguments on both sides. The affirmative took the ground that the final triumph of the Japanese over the Russians, which now seems imminent, is a menace to Aryan supremacy and would seriously retard the progress of Christianity in the Orient. In support of this the argument was made that the Mongolian races, incited by Japanese successes, would know no bounds to their ambition, and that Europe at least would become overrun by the "yellow peril" through enormous armies which the Japanese and Chinese could command; through restrictions upon trade and the expulsion of Europeans from Asia and the United States from the Philippines. These and many other arguments, including a charge of the unreliability of the Mongolian character, were clearly presented and well received.

The negative turned the searchlight of criticism upon the Russian character, individual and national, and laid bare the record of political intrigue, corruption and crime which has brought so many woes upon the Russian people themselves; held that religion of Russia is of no effect to stay the tide of oppression at home, much less to hold out hope to other countries; and asserted that the Japanese, on the other hand, permit freedom of religion, have upheld the open door policy, have adopted the principles of western civilization, have been peaceable except when forced into war for their own protection, and are today by reason of their intelligence and progressiveness a great, liberal world power in which there is no element of peril to the arts of peace or the progress of Christianity. Other arguments were added, making a highly creditable defense.

The large crowd present greatly enjoyed the debate and was not only entertained, but edified thereby. After considering the arguments carefully the judges rendered a decision in favor of the affirmative.

## MRS. HALL'S MIRACLE.

Experiences Similar to This Have Oc-  
casioned Considerable Comment  
in Bryan.

Few women are better known in  
Lockport, N. Y., than Mrs. Pattie  
D. Hall, as she belongs to one of the  
best families and has a large circle  
of friends and acquaintances. In a  
recent interview Mrs. Hall said:

"The experience I have been  
through in the last two years seems  
like a miracle. I was so badly off  
that life seemed almost unendur-  
able, and my deafness increased so  
that I could scarcely hear anything.  
The suffocation in my chest and the  
indigestion caused by my catarrh,  
produced very severe suffering. I  
had five different physicians, bought  
everything that anybody recom-  
mended to me, but finally gave up  
in despair.

"One day my milliner asked me if  
I had ever tried Hyomei. I began  
the treatment, and cap thankfully  
testify that Hyomei does cure this  
terrible disease. Since using it my  
hearing is greatly improved, and  
the only time I have any catarrhal  
trouble is when I take cold. I then  
use Hyomei, and always get instant  
relief. My friends and acquaintances  
marvel at the change in my health  
and hearing."

Hyomei has made many cures of  
catarrh, and in connection with Hy-  
omei balm, of catarrhal deafness in  
Bryan. Similar experiences to that  
of Mrs. Hall's have created a large  
sale for Hyomei with E. J. Jenkins.  
The complete outfit, including the  
inhaler, costs but \$1.00, while extra  
bottles are but 50 cents. Ask E. J.  
Jenkins to show you the strong  
guarantee under which he sells Hy-  
omei.

## Uses For Fishskin.

The serrated spines of the rayfish are  
used by the Indians of the Amazon to  
arm their arrows. Sharks' teeth are  
used in arming weapons, while the  
teeth of this and other species are used  
as trinkets by many peoples. The jaws  
of the sleeper shark are used for head-  
dresses by certain of our Indian tribes.  
The vertebrae of the sharks are also  
prepared as canes. In Japan the bones  
of sharks and skates are used in mak-  
ing imitation tortoise shell. In Europe  
and this country shark and ray skins  
are employed to smooth and polish sub-  
stances, while the skin of the thornback  
is employed by cabinet makers in lieu  
of sandpaper, than which it is very  
much more durable. Woodworkers also  
use the rough skin of the blue dogfish  
like emery paper for smoothing their  
work and preparing it for polishing.  
In India the jawbone of the boalee fish  
is employed by the natives about Dacca.  
The teeth, being small, recurved  
and closely set, act as a fine comb for  
carding cotton in removing the loose  
and coarse fibers and all extraneous  
matters from the cotton wool.

## A Lost Language.

A monument to a lost language is to  
be found in the village of St. Paul,  
near Penzance, in Cornwall, and it is  
believed to be the only monument in  
existence which marks the death of a  
vanished tongue. It commemorates  
the death of the last woman who spoke  
in the Cornish language and was erect-  
ed by a Frenchman. It is a granite  
obelisk about seven feet high and is  
built into the churchyard wall, the  
front facing the highway, where it is  
plainly discernible by all who pass that  
way. The upper part is in the form of  
a Maltese cross. The inscription reads  
as follows: "Here lieth interred Dor-  
othy Pentreath, who died in 1777, said  
to have been the last person who con-  
versed in the ancient Cornish, the pe-  
culiar language of this county from the  
earliest records till it expired in the  
eighteenth century in this parish of  
St. Paul."

## Courtesy to Women.

A young woman, says a correspond-  
ent, who was passing the evening with  
the family of Lord Coleridge, the emi-  
nent English jurist, was about to start  
for her home at 10 o'clock when he  
offered to accompany her. She, with  
the respect due to his age and with  
the fearlessness of youth due to ig-  
norance of the dangers surrounding  
young women, said: "I thank you, sir,  
but I do not want to trouble you. Can-  
not the maid accompany me?" His  
manner showed the respect in which  
he held all women. He said, "My  
dear, the maid is a woman also." If  
all men were so truly courteous there  
would be no complaint on the part of  
women that they do not receive the  
treatment they should receive from the  
opposite sex.

## When You Put Milk in Tea.

"The scientific justification for add-  
ing milk to tea," says the Dietetic and  
Hygienic Gazette, "comes from the  
facts that the tannic acid contained in  
tea combines with the albumen of the  
milk to form tannate of albumen,  
which is practically leather. By drink-  
ing tea alone the coating of the stom-  
ach is made leathery. But when milk,  
which contains albumen, is added the  
molecules of tannic acid select their  
affinity of albumen from it, and as a  
divorce is unknown to tannate of al-  
bumen the lining of the stomach is less  
liable to be affected by the tannic acid  
than it would be if the tea were taken  
alone."

## A French Custom.

In France a newly married couple do  
not have the ordinary bridal calls made  
upon them. Instead, garbed in their  
best the bride and groom pay visits  
to all their married friends. Imagine  
a shy woman's embarrassment when  
she must call upon total strangers—es-  
pecially if she marries away from her  
own neighborhood or her husband has  
a country house in a different quarter.  
—Philadelphia Ledger.

## The First Bicyclist.

Dr. Church of Birmingham was the  
first person who, in my youth, con-  
trived a bicycle and rode upon it in the  
town, which excited more consterna-  
tion than a Southcottian with his  
beard. He was an able physician, but  
his harmless innovation cost him his  
practice. Patients refused to be cured  
by a doctor who rode a horse which  
had no head and ate no oats.—Holy-  
oke's "Bygones Worth Remembering."

## Working on His Life.

"Well, John," said the eminent per-  
sonage, who was now an invalid, "who  
is it wishes to see me now—my blog-  
rapher?"  
"No, your excellency," replied the but-  
ler, "your physician."  
"Ah, almost the same thing! He's  
at work upon my life too!"—Philadel-  
phia Press.

## Poor Delivery.

Short—Hello, Long! Where are you  
going? Long—I'm on my way over to  
the postoffice to register a kick against  
the miserable delivery service. Short—  
What's the trouble? Long—Why, that  
check you promised to mail me ten  
days ago hasn't reached me yet.—Chi-  
cago News.

## Remembered Her.

Miss Singer—I wonder if that rich  
uncle of mine remembered me when he  
made his will? I used to sing to him.  
Cynical Friend—He must have; he  
hasn't left you anything.

## His Share.

Dibble—Did you contribute anything  
to the fund for the relief of poor Tom  
Smith? Skinner—No, but I did better.  
I told him how sorry I was that he was  
ill.—Boston Transcript.

#### HARVEY ITEMS.

To the Bryan Eagle.

Harvey, Texas, April 12.—En-  
closed you will find 50 cents for  
my subscription. As money is as  
scarce as hen's teeth, I will only  
order the Eagle for six months,  
and perhaps by that time I will  
have sold my one bale of cotton  
which I expect to raise this year.  
I am in favor of reduction of acre-  
age in cotton. Some say they are  
going to reduce 25 per cent. I  
don't know just what per cent I  
will reduce, but each one can figure  
for himself. Last year I planted  
thirty acres and this year I expect  
to plant five acres. I fear a great  
many farmers are going to plant  
more cotton than they had intended  
owing to so much rain preventing  
the planting of a large corn acre-  
age. However, we should not be-  
come discouraged over the outlook  
for corn; there is yet plenty of  
time to plant corn. There is a  
time for all things; hence as there  
has been no time for planting corn  
earlier, there must be a time for  
planting it later. One thing we  
must not forget—it's not too late  
for planting goobers and sorghum.  
Goobers are almost as good feed  
for stock as corn, if properly taken  
care of, and sorghum is an excel-  
lent feed if correctly harvested.  
Black-eyed peas, sown on any kind  
of land, make a good hay for cat-  
tle and horses. I am sure, if the  
farmers would only think a little,  
they could soon learn that other  
crops can be raised upon which a  
good profit can be realized.

The farmers of this precinct are  
rapidly planting the grand staple.  
If the weather remains fair there  
will be thousands of acres of cotton  
planted in the next ten days—per-  
haps enough to supply the demand  
of the universe. What we need  
this year is enough less to supply  
the demand, as there was too much  
raised last year. But some of us,  
and most likely all, will not know  
how much less it will take. We  
can only make a rough calculation  
as to the number of bales required.  
If we made 14,000,000 bales last  
year and there are 3,000,000 bales  
more than the commercial demand  
can consume, we must note that  
these 3,000,000 bales will be carried  
over for next year's consumption.  
At these figures we find that eleven  
million bales would be the com-  
mercial demand. Now if we raise  
only 8,000,000 bales this year we

will have the demand supplied, in-  
cluding the 3,000,000 bales on  
hand. In order to make this crop  
we must reduce 42 per cent. If  
there were 42,000,000 acres in cot-  
ton last year, we must plant only  
24,000,000 acres this year. To  
make it more clear: we must plant  
only 8 acres this year to every 14  
acres last year, and if we planted  
100 acres last year we must plant  
only 37 1-7 acres this year. In  
order to prove these figures I will  
first state that I allowed 3 acres to  
the bale last year and counted  
14,000,000 bales; then we have  
3 times 14,000,000 which gives us  
42,000,000 acres. Now we must  
make 8,000,000 bales this year and  
count same number of acres to the  
bale as last year—we would say 3  
times 8,000,000 are 24,000,000  
acres to plant this year, and at the  
same time we want to make 6,000,  
000 bales less this year than last.  
Well, then, reduce the crop of 42,  
000,000 acres down 18,000,000 and  
we will have the 24,000,000 acres,  
count it to average a bale to three  
acres, we will raise our required  
amount.

Great will be the day when all  
farmers are organized so as to  
have confidence in each other—  
each to let the other know just  
how much of each farm product he  
is going to plant, and in the mean-  
time be true to these promises; be  
firm in one solid body as brothers.  
If you are going to be a man, be  
one, and don't merely pretend to  
be. Don't stay at home and say  
"I'm willing to do what my neigh-  
bors do," but all meet together  
and discuss the subject of crop  
diversification and scientific agri-  
culture. School yourselves on  
farming; you can never learn too  
much about it. No man has yet  
learned it all. There is something  
to be learned every year in farm-  
ing. In the Farmers' Union would  
be a nice place to school yourself.  
But we don't ask you to join us  
unless you think it a good thing  
and believe it your duty to join.  
But I say do something, if it's  
nothing more than scrub the moss  
off your back. Let the world know  
you are not dead in your hull.  
Come out of the hickies I say.

Our little Union at Harvey has  
grown enough to secure a charter,  
the membership to date being 17.  
Another small Union has been  
organized at Holligan school house  
with 8 members, organization hav-  
ing been perfected April 5. Many  
others intended to join at this  
meeting, but were absent on ac-  
count of the illness of Mr. Jim  
Weeden, whose death has since  
occurred.

The general health of this com-  
munity is very good at present,  
though some of the farmers have  
"all-overs" on account of so much  
wet weather.

Mr. C. L. Eden and family paid  
a visit to Mr. Shaw this week.  
Wild geese are going north by  
the hundreds. I wonder if there  
isn't an over-production of feathers  
this year—I see the geese are still  
holding their feathers. Oh, well,  
I guess they have joined the Farm-  
ers' Union or the National Cotton  
Growers' Association. If I could  
find some news the editor wouldn't  
mind publishing that, but I guess  
this letter will find its way to the  
waste basket. If it does, the other  
half of my tablet is left, upon which  
I can write something else.

Much good luck and success to  
the editor and readers of the Eagle.  
Uncle Josh.

## Indigestion Causes Catarrh of the Stomach.

For many years it has been supposed that Catarrh of the Stomach caused indigestion and dyspepsia, but the truth is exactly the opposite. Indigestion causes catarrh. Repeated attacks of indigestion inflame the mucous membranes lining the stomach and exposes the nerves of the stomach, thus causing the glands to secrete mucin instead of the juices of natural digestion. This is called Catarrh of the Stomach.

## Kodol Dyspepsia Cure

relieves all inflammation of the mucous membranes lining the stomach, protects the nerves, and cures bad breath, sour risings, a sense of fullness after eating, indigestion, dyspepsia and all stomach troubles.

## BEEF TRUST EXISTS.

Legislative Committee So Says in Report to Senate and House.

Austin, April 14.—Beef trust legislative committee appointed some time ago to make an investigation as to the existence of a beef trust in Texas has submitted its report in the house and senate. The committee reported that it had many persons before it, and that while was not developed much evidence of a specific violation of the anti-trust laws upon which it could recommend the institution of civil or criminal proceedings against any particular person or corporation, yet the hearings and advices obtained shows that a trust exists. The committee says: "We are able to state and to report that, in our judgment, there exists in this state a combination of persons and corporations engaged in the business of packing and selling beef and other like products, which is in contravention of the anti-trust law and constitutes a trust, monopoly and a company in restraint of trade." The committee then recommends that the bill making an appropriation of \$15,000 to be placed at the disposal of the attorney general to secure evidence with which to prosecute the beef trust. The committee also asks that it be retained. The report was adopted.

Both branches of the legislature Friday adopted the free conference committee report on Representative Bowser's bill fixing the tax on gross premiums of insurance companies. As finally agreed upon, life insurance companies are taxed 2 per cent, fire 1 1/2 per cent and others 1 per cent. The rebate clause in favor of home companies is retained. All insurance companies will continue to pay franchise tax.

The senate passed finally the district judges' bill increasing salaries from \$2500 to \$3000 after being tied up on it for three days. The senate also confirmed the list of notaries public sent in by the governor. The senate concurred in house amendments to drainage bill, and the house concurred in senate amendments to state banking bill.

## GOT EIGHTEEN WOLVES.

President and Party Depart For Colorado After Bigger Game.

Frederick, Okla., April 14.—Total number of wolves secured by the president and party were eighteen. Governor Ferguson and ex-Delegate Flynn, together with a number of leading gentlemen from other Oklahoma towns, arrived in Frederick. Quite a crowd was present and the former gentlemen made appropriate speeches from the grandstand from which the president spoke last Saturday. They both expressed surprise at the size of Frederick, neither having been here before. Mr. Flynn characterized President Roosevelt as the greatest man of two continents.

Over eighty plates were laid at the banquet which was given these gentlemen in the evening. One of the pleasant surprises was when Congressman Stephens entered the banquet hall. He was passing through from Washington to his home in Vernon, and hearing that some of his friends were here, he stopped off. Mr. Ferguson responded to the toast, "Has Oklahoma Any Counties Which Need Dividing?" He seemed of the opinion that the territory has counties that need dividing, but he would rather leave the task to his successor. Mr. Flynn spoke of irrigation and other Oklahoma matters. He said Mr. Roosevelt was the father of the irrigation measure. Oklahoma, he said, would never get her just share of the reclamation fund until she became a state and had six or seven congressmen and two senators to assist in seeing that she got a fair deal.

Mr. Stephens, an authority on the big pasture, was given an ovation. He said he was in favor of having it opened to settlement at the earliest time possible and would rather see it dotted with farm houses than roamed over by wolves for even a president to hunt. Other toasts were responded to in an able manner by leading Oklahomans.

Presidential party has departed for Colorado.

## WORTHAM TESTIFIED.

Takes the Stand and Gives a Great Deal of Evidence.

Austin, April 14.—After it was decided to try John A. Kirby and A. S. Vandervoort jointly, defendants pleading not guilty on charge of conspiring to bribe an official, testimony was proceeded with.

District Clerk J. P. Hart was placed on the stand and identified the first amended original petition in case No. 17,915, styled the State of Texas vs. the Kirby Lumber company. This was offered in evidence over the objections of the defense. On cross-examination Mr. Hart said that the body of the petition was in the handwriting of Judge D. A. McFall.

On direct examination he had stated that one of the signatures at the bottom was that of District Attorney Warren W. Moore.

Ex-State Treasurer W. B. Wortham was the next witness.

The testimony of Mr. Wortham covered the same ground as the testimony which he gave during the trial of Warren W. Moore.

Burton, of Kansas, was re-indicted by the Federal grand jury on the charge of accepting fees to the amount of \$2500 from the Rialto Grain and Securities company of St. Louis, in whose behalf it is alleged he acted as attorney before the postoffice department. The new indictment contains five counts. The first three specify that Senator Burton made an agreement to accept \$2500 to look after the interests of the St. Louis concern. Count No. 4 charges that he received a \$2500 fee, and No. 5 an additional fee of \$500.

Recently the United States supreme court reversed the case of Senator Burton, who was convicted of unlaw-

SENATOR J. R. BURTON OF KANSAS.

fully accepting fees from the Rialto company, on the ground that the money he received was not paid according to the evidence in St. Louis and hence was without the jurisdiction of the St. Louis federal court.

The new charges contained in the indictment set forth that Senator Burton received \$3000 and made the agreements referred to in the counts of 1, 2 and 3 while in St. Louis. District Attorney Dyer stated that the retrial of Senator Burton would take place some time in May.
